

Compactor Electronic Pressure Sensor

FEATURES:

- Pressure transmitters have an analog 4–20 mA or 0–10 V output that is proportional to the measuring range.
- Pressure and vacuum switches have a solid-state NPN or PNP normally closed (NC) output.
- An anti-leakage system integrated in products for pressures ≥ 40 bar prevents fluid leakage in the event of the measuring cell destructive pressure being exceeded.
- These compact products that offer excellent EMC characteristics are particularly suited to difficult industrial environments.
