

## Odor Control System1 for Buildings with 1-5 Floors, Vaporizer

This system is ideal for buildings with an enclosed trash collection room and trash or garbage chute of up to 5 floors. It uses 6 gallons of our Odor Reactant Solution every other month. The solution is available separately in concentrate form to be mixed with water. There are 3 scents available: No Scent, Southern Breeze, and Orchard Air. This solution is recommended for our system. Other solutions used in this system will void the warranty.

This is an electronically controlled, continuous disbursement silent vaporizing system. The system is designed to be mounted on the wall of the trash bin room. Includes mountable system holder. System requires a 120 vac 60hz outlet. See attached spec's for this product before ordering.

Free freight applies to California, Arizona, New Mexico, Nevada, Utah, Colorado, Oregon, and Washington only. Freight charges will apply for other states.
